## Rio Grande Valley Metropolitan Planning Organization Annual Listing of Projects

### Introduction

As required by the new transportation bill passed on December 4th, 2015, the Fixing America's Surface Transportation (FAST) Act outlines the requirement for Metropolitan Planning Organizations (MPOs) to publish an annual listing of projects for which funds have been obligated in the preceding year including a listing of pedestrian and bicycle projects. From FAST-Act, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(5)(B), 49U.S.C.5303(j)(7)(B), and 49U.S.C.5304(g)(5)(B):

“...an Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).”

This provision is intended to increase the transparency of government spending on transportation projects and strategies in metropolitan areas to State and local officials, and to the public at large. Realizing this objective involves promoting accuracy and responsiveness in financial planning and adoption of a proactive approach to sharing information with the public in a meaningful way, at an appropriate time, and in a user-friendly format. Therefore, the following Annual Project Listing (APL) has been reviewed and verified by RGVMPO Staff from the original TxDOT APL listing included in document appendices. The RGVMPO has utilized various resources for verifying APL listing including the following: Statewide Transportation Improvement Plan (**STIP**), Advanced Funding Agreements (**AFA**), Apportionment & Federal Transaction Report, Federal Project Authorization and Agreement (**FPAA**).

### Discussion Key Terms and Concepts in Statutory Language

**Cooperative Process** – FAST-Act just like its predecessors MAP-21, SAFETEA-LU and TEA-21 before that, requires the MPO, State, and public transportation operator(s) to cooperate in preparing a list of projects for which Federal funds were obligated for spending during the immediately preceding year. This cooperation is essential because of the different responsibilities held by the organizations in planning, programming, and project implementation. The MPO presents information on the projected schedule and funding for projects contained in the TIP based only upon what is received from implementing organizations. Similarly, up to date information on implementation of projects in the TIP is available only from those implementing organizations. Thus, the annual report of projects for which an obligation of funds took place must be a cooperative effort.

**Metropolitan Area Focus** – Although the Annual Project Listing of obligated projects provision appears in both metropolitan and statewide planning sections of the law, the applicability is limited to metropolitan areas. Statutory reference is made in conjunction with statewide TIPs, but only to the extent that those

documents contain project information from metropolitan area TIPs. These two references in law are redundant and are not meant to require two separate project listings.

**Content and Format of Project Listing** – The project listings should align with categories included in the TIP. This includes project name, location, and other descriptive information included in the TIP. The listing also should include the amount of funds programmed in the TIP, the amount obligated in the program year, and the amount of funds remaining and available for use in subsequent years.

**Pedestrian and Bicycle Facilities** – The Annual Listing must include obligations for projects in the TIP that were specifically identified as bicycle or pedestrian projects. For projects in the TIP that include bicycle and/or pedestrian facilities as an incidental part of a larger project, a reasonable effort should be made to identify the cost and general location of these facilities in the Annual Listing.

**Timing of Publication** – The Annual Listing should be completed and published within three months after the end of the program year. The list should also include visual components, such as maps and charts, to ensure that the information is understandable to a broad readership with varying levels of familiarity with transportation planning and programming concepts.

**Program Year** – The year for which project obligations are reported would be each MPO's previous program year. The program year can be a calendar year, the Federal fiscal year, the local fiscal year, or any other annual increment that MPOs and States choose for the TIP.

**Obligated** – Within this context, an obligation is the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that has been authorized by the federal agency and funds have been obligated. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not be necessarily equal the total cost of the project. For FTA projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.

## RGVMPO Background

FAST-Act requires those urbanized areas with a population greater than 50,000 to develop an MPO as a condition for spending federal highway or transit funds. The Rio Grande Valley MPO promotes a regional perspective towards transportation planning and has the responsibility for planning, programming, and coordinating federal investments. The Rio Grande Valley MPO planning process creates a partnership among state, local government, and transit operators in providing transportation improvements. The Rio Grande Valley MPO coordinates planning efforts with the Texas Department of Transportation (TxDOT), Lower Rio Grande Valley Development Council (LRGVDC), regional transit providers: Valley Metro, McAllen Metro & Brownsville Metro, Federal Highway Administration (FHWA), and Federal Transit Administration (FTA). The Transportation Policy Board (TPB) is the decision-making committee of the MPO. The committee develops its positions by working with the agencies previously listed, elected officials, local government staff, and the general public, through a committee system where various issues are presented, discussed, and recommendations are made. Current committees include, the Technical Advisory Committee (TAC) and Bicycle Pedestrian Advisory Committee (BPAC). Special subcommittees and working groups are created and appointed, as need dictates.

## APPENDIX

Rio Grande Valley MPO and TxDOT Pharr District projects contained in initial TxDOT reporting prior to MPO review are listed by Federal-Aid Project Number within these appendices.

Federal-Aid Project Number:
2021058
